Tax Reform: Broadly restructure our tax system in order to help struggling families and to encourage businesses to keep their jobs in America.

Regulation Reform: Abolish costly onerous government regulations on employers that drive up costs while keeping job growth down.

Eliminate the New Health Law's Mandate on Business: Repeal the new, heavy-handed requirement that all businesses buy health insurance for their workers.

BBA: A Balanced Budget Amendment will help bring stability to our economy.

Trade: Expand our global markets by enacting pending Free Trade Agreements with South Korea, Colombia, and Panama. These agreements could create up to 250,000 jobs in the United States.

Tort Reform: Pass far-reaching legal reform that removes frivolous lawsuits from our court system.

Energy: Propose expanded drilling in places like Alaska and other areas. Expansion will not only lead to more American energy, but lead to hundreds of thousands of jobs.

Labor: Fight an overactive NLRB, will support states pursuing right-to-work laws.

China: China has ignored intellectual property rights. This cost the U.S. economy \$48 billion in 2009. One study concluded that if China cracked down on this problem, it could create 2.1 million jobs in the U.S.

Government Workers: Reduce the government workforce by 10% via attrition and align wages and benefits of government workers with private sector.
